

SureShot™

Wireless Remote Controller

***This one rack unit device is designed for use either in the field or in the studio.
It's extremely easy to program, yet exceptionally versatile.***

The base configuration features:

- 4 GPI Circuits
- 4 Serial Connections
- Handheld Remote with 900 foot range

A second bay of GPI circuits and serial connections may be added, along with a second handheld controller.

Also included in the kit is simple-to-use programming software and a programming cable.
